Nedelja, 14. februar: – Evangelisti povedo, da je Jezus ozdravljaval bolezni med ljudstvom in oznanjal blagovest odrešenja. Nekatere bolezni so v preteklosti imele in imajo tudi danes vpliv ne le obolelega ampak bolezen vpliva tudi na druge. – Danes je to bolezen korona virus COVID-19.

Kdor je zbolel za gobavostjo, se je moral umakniti in živeti v »karanteni« in če se je kdo približal, ga je moral opozoriti na bolezen.

Bolezen gobavost pa je tudi kot simbol. Razne segregacije in zapostavljanje so kot gobavost. Tudi v duhovnem pogledu se govori o gobavosti. Takšna gobavost je greh, ki ga more človek skrivati in prikrivati, ko se pa vidi, je velikokrat prepozno tudi, da bi se srečal z Božjim odpuščanjem. Redna spoved je najboljšo zdravilo zoper duhovno gobavost.

Lepers were among the most piteous of people in ancient times. Although little was known then of the origin of the sickness, it was clearly known to be contagious and therefore greatly feared. The only solution was to isolate the victim and not allow him/her to approach other people... Jesus is filled with a deep sense of compassion for the man's plight, he physically touches him to indicate his compassion. At the same time, he is strongly warned by Jesus not to say anything to anyone about it. Jesus wanted no sensationalism. The healing was for the man's sake; it was not a publicity. Jesus' mission was to bring wholeness into people's lives but he did not want to be seen as just a wonderworker.
